### **DETAILED ACTION**

The following is an examiner's statement of reasons for allowance: The present invention is directed to a content recording/erasing apparatus, which intermittently erases an unnecessary content from a recording medium. Each independent claim identifies the uniquely distinct features "setting in a register a numeral relating to a total amount of a remaining amount of said recording medium and an amount of said unnecessary content prior to a start of erasing said unnecessary content; and periodically subtracting the numeral set in said register." The closest piece of art Dwight (US20020092019) discusses the periodical erasing of irrelevant or unnecessary information, but does not disclose the aforementioned limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
